

ct special DESINFEC'T

ATTACHED DVD
DESINFEC'T
2017/2018

A quick moment of inattention, a click – and Windows is infected. If a blackmail Trojan such as Wanna-Cry has attacked, only a quick shut-down will help.

That is when Desinfec't is the perfect helper – when crisis strikes. Developed by c't, it is a system for scanning and cleaning Windows computers. It starts directly from DVD or USB stick and brings a special operating system on Linux-based. If Desinfec't runs, you can get started right away. Thanks to EasyScan, users who are not so well versed in computers are also able to do this.

The tool sends four virus scanners from Avira, Eset, F-Secure and Sophos to the hunt, which clean the inactive Windows system from the outside. Current virus signatures are included for 1 year. Professionals can save data and clone entire systems with disinfection.

FROM THE CONTENT

- Desinfec't properly start and use
- Inspect and clean Windows PCs
- Adjust Desinfec't and use versatilely
- Expand Desinfec't via Btrfs
- Tips & Tricks for Desinfec't
